reduces wear

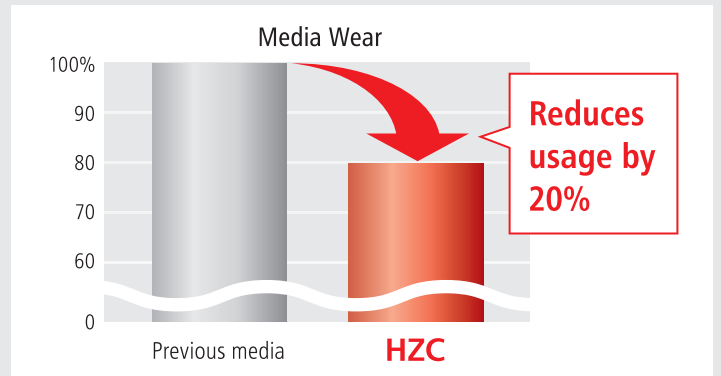

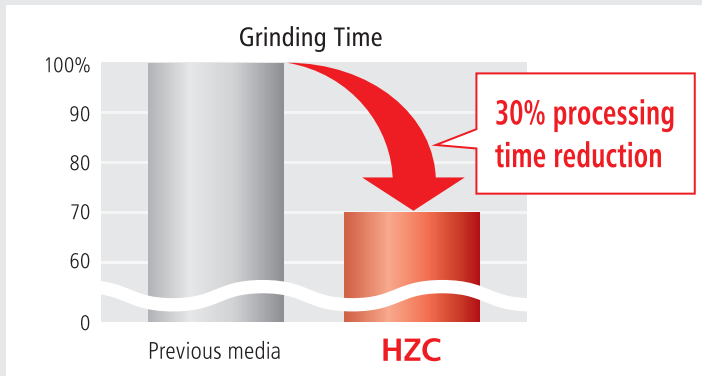

Heavy Grinding

Molded media for wet mass finishing

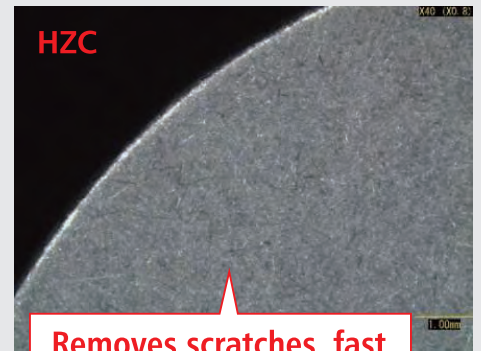

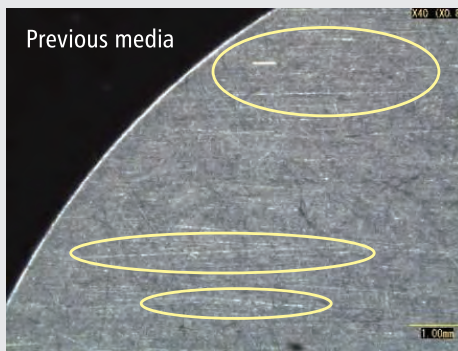

HZC

Reduces grinding by 30% ! *

*Values based on standard internal testing

■ Appearance of surface after 15 minutes of use

Performance

Features

Disadvantages of generic media

Molded media ▪ Long grinding times

Ceramic Media

- Indentations
- Rougher surfaces
- Can create extra burrs

HZC fixes it all

Suitable workpieces

Brittle and easily chipped ceramic parts

Delicate soft metal and resin parts

Electrical components that must be free of contaminants

Parts that need to be processed without roughening the surface
